BELGIUM'S BAD WRECK

**WORST RAILROAD CATASTROPHE
IN HISTORY OF COUNTRY
OCCURRED TODAY.**

A MISPLACED SWITCH THE CAUSE

**Every Car Was Ground to Pieces and
Every Passenger Either Killed
or Injured—Fifty Dead
Found Already.**

Antwerp, May 21.—The worst railroad catastrophe in the history of Belgium occurred near Antwerp today when, because of a misplaced switch, the Antwerp express, running at fifty miles an hour, crashed into a train loaded with pilgrims which stood on a siding.

Every car in the pilgrim train, excepting the foremost one, was telescoped. Each was literally ground to pieces.

Practically all the passengers were either killed or badly injured. About fifty dead have already been removed from the wreck, together with more than one hundred injured.

WORSE STORM IN YEARS

**Snow Fell Heavily in Wyoming and
Montana—Cattle Are Suffering.**

Ottumwa, Ia., May 21.—Southern Iowa was hit today by a terrific wind storm, and at Albia it assumed the form of a tornado. Grant school, at Albia, was wrecked and the roof crashed through to the rooms below just a few minutes before the hour for the pupils to assemble. One man was killed.

Fruit Crop Was Ruined.

Sheridan, Wyo., May 21.—Three feet of snow fell here yesterday and last night. It was the worst storm at this season experienced in twenty-five years in Northern Wyoming and Montana. The fruit is ruined and live stock is suffering greatly.

Snowfall Was Heavy.

Butte, Mont. May 21.—Heavy losses in live stock are reported as the result of the Dawson blizzard, which began yesterday. The snow is two feet on the level and six feet in drifts.

Temperature Dropped 25 Degrees.

Alliance, Neb., May 21.—Northwestern Nebraska experienced a heavy snow last night and this morning. The temperature dropped 25 degrees.

DEATH OF MRS. MITCHELL

**Body Shipped to Indianapolis, Neb., for
Interment.**

Mrs. Carrie P. Mitchell, 69 years old, died of gastritis at the home of her daughter, Mrs. R. B. Evans, 414 East Fifth street, early last evening, after a week's illness. She leaves besides her daughter a son, E. J. Mitchell, of McCook, Neb.

Rev. James Parsons, pastor of the First Congregational church, of which conglomeration deceased was a member, conducted funeral services at the family residence at 1 o'clock this afternoon, and at 2:30 o'clock the remains were shipped to Indianapolis, Neb., deceased's former home, where burial will be made tomorrow.

WHOSE SADDLE AND BRIDLE?

**Charlie Heynen Found Them on His
Horse This Morning.**

C. H. Heynen today recovered a \$125 bay horse which either stayed from home or was stolen by unknown parties last Thursday night. The animal was missed last Friday morning, and the owner notified the police, who kept a watch for the animal and possessor of it.

Nothing was heard of the horse until 8 o'clock this morning, when Mr. Heynen, on his way to work, espied an animal similar to his tied to a post in the alley near F. T. Mulcahy's grocery store.

A new saddle and bridle were on the horse, and on investigation Mr.

Heynen discovered the animal was his. He took possession of the horse and rode it home, where he still has possession of the saddle and bridle.

The police do not think the horse was stolen, as they venture the opinion that if it was the thief would not bring the animal in the downtown district where it would be likely to be recognized.

Fine Money Is Deposited.

The money collected as fines on over-due books at the library is now deposited each afternoon in the Third National bank, instead of being carried home at night by the librarian, as stated by a local newspaper. The library burglar will have to tackle the Third National if he expects to get any portion of the library funds in future.

EDITOR KILLS ANOTHER

**J. FRANK MITCHIM, FORMERLY
OF MISSOURI, IN TROUBLE
IN EL PASO, TEXAS.**

IS THE PROPRIETOR OF THE NEWS

**Killing Seems to Be Result of Rivalry,
as Both Were Newspaper Men
—Mitchim Once Prominent
in State Politics.**

El Paso, Texas, May 21.—Monroe M. Harrell, formerly of Oklahoma City, but for a number of years connected with newspaper work in El Paso, was shot and killed here last night by J. F. Mitchim, proprietor of the El Paso Evening News. Mitchim, who was arrested soon after the shooting, claims that Harrell had threatened to take his life.

The shooting occurred in front of the News office. According to the statement of Patrolman Ford, who is the only witness to the killing, Harrell passed him, and a minute later called "Mitchim." The patrolman turned just as Mitchim pulled a revolver from his pocket and fired. Harrell fell to the sidewalk, mortally wounded, and died after being placed on a stretcher, to be taken to the hospital.

In a statement made just before he lapsed into unconsciousness, he said: "I am murdered."

The dead man was 32 years old, and leaves a mother and sister in Oklahoma.

J. F. Mitchim, mentioned above, was formerly a well known newspaper man of Missouri, and was very prominent in democratic politics. He at one time published a paper at Cape Girardeau, afterwards going to Springfield as business manager of the Democrat, later purchasing the Leader. He remained in Springfield a few years, removing from there to DeSoto, where he continued in the newspaper business.

He was secretary of the state democratic convention of 1898, of which the late R. P. Bland was chairman.

About six years ago Mitchim went to El Paso and secured the Evening News, which he has been conducting since.

His many friends in Missouri will learn of his trouble with deep regret.

A MONETARY COMMISSION

**Senate Starts Movement for Investi-
gation of Currency Necessities.**

Washington, May 21.—The senate today adopted a joint resolution introduced by Senator Aldrich creating a national monetary commission of nine senators, to be appointed by the president of the senate and nine representatives to be appointed by the speaker of the house to investigate changes necessary to meet the monetary situation of the country and laws relative to banking and currency. They are to sit during the recess of congress whenever it is deemed necessary.

Mr. Simmons in Sedalia.

Hon. H. T. Simmons, of Shelby county, representative of his county in the state legislature and candidate for lieutenant governor, is in the city today.

Mr. Simmons reports flattering prospects for a victory and is adding to his strength every day. He has always been a friend of Sedalia and her interests while serving in the assembly and naturally will receive good support in Pettis county.

THE RED MEN'S MEETING

**SEDALIA DELEGATES RETURNED
FROM MOBERLY, MO., THIS
MORNING.**

IT WAS TRULY A GREAT GATHERING

**Two Sedalians Elected to the Great
Council—A \$75,000 Home Is
to Be Erected for Aged
Members of Order.**

H. H. Edwards, Will Brummett, Charles Smith, James Card, Will De Bold, Lawrence Laupheimer and Hiram Stearns returned this morning from attending the great council of the Improved Order of Red Men of Missouri, which adjourned at Moberly last night, after a two days' session.

Boonville was selected as the next place of meeting, to be held on the third Tuesday in May, 1909.

This is to be also the golden jubilee of the founding of the order in Missouri, and officers from all parts of the United States will be in attendance.

One hundred and twenty-six delegates attended the convention, and \$75,000 was set aside for the erection of a Red Men's home, the site for which is to be selected by a committee of three members of the order, viz: Joseph Paltz, of Springfield; H. Tiedwer, of St. Joseph, and Edward Lysoth, of St. Louis. The committee will report at the meeting in Boonville next year.

James Card, assistant chief of po-

litical headquarters. We favor the keeping of orderly and respectable dramshops and do not believe that they should be made political headquarters.

We believe that the abolishment of prohibition of licensed saloons will mean the creation of unlicensed dives.

The unlicensed dive, experience shows, is the successor of the licensed saloon. The dive breeds contempt for law, just as the well regulated saloon secures respect for it.

We therefore appeal to all wage workers and their friends to resent with their ballots this impudent attempt to bring penury and woe to Sedalia and its citizens.

President.
E. T. BEHRENS,
Secretary-Treasurer.

At a largely attended meeting of the Sedalia Federation of Labor, held Wednesday night, the following resolutions were unanimously adopted, and the secretary was instructed to send a copy to each of the Sedalia papers and to the secretary of every body of union workmen in the city. A committee was also appointed to work in conjunction with the general committee appointed at a former meeting. The resolutions in full follow:

AN OLD GAME ON A TRAIN

**W. R. WOODWARD WAS ARRESTED
IN KANSAS CITY FOR
HAVING WORKED IT.**

PASSENGER WAS SHORT-CHANGED

**Was Traveling on the Missouri Pacific
in Kansas When He Met the
Smooth Artist Who Finally
Got His Money.**

Kansas City, May 21.—Lee Monday, of Speedville, Tenn., who has been attending the funeral of a relative in Sumnerfield, Kan., confessed to the Union depot detectives last

night that he was the victim of a rare swindle on the Missouri Pacific train which arrived in Kansas City at 6 o'clock last night.

Two men entered the train at a certain station, sat down with him and became friendly. One displayed a handful of silver money and several \$1 bills.

"I've got to send some money to the old folks at home," said he, "and this is too bulky. Haven't got a ten you want changed, have you?"

Monday said he'd "just as soon," and the man handed over a pile of money for Monday's bank note. Monday counted it.

"I guess you must have made a mistake; there's only \$9 here."

The man took it back and counted it. He acknowledged the mistake and added another \$1 bill. Monday saw him do that, but he didn't see him slip out a \$5 bill from the bottom of the pile. Monday put the money in his pocket without counting it again, and didn't find out he was short-changed until he reached Kansas City.

A man who gave his name as W. R. Woodward was arrested by the depot detectives on the charge of taking the money.

Wonder if W. R. Woodward is "Bilky" Woodward, formerly of this city, but now of Kansas City?

Harry Raises Berries.

H. L. Moore, railway mail transfer clerk, today brought to town twenty-seven boxes of fine home-grown strawberries, some of the finest seen on the local market this season.

FEDERATION OF LABOR

**AN IMPORTANT MEETING HELD
AT THE HEADQUARTERS
LAST NIGHT.**

RINGING RESOLUTIONS ADOPTED

**Appeal Made to All Wage Earners to
Cast Their Vote Against and
Work in Opposition to
Prohibition.**

Whereas, the city of Sedalia has called an election to be held on June 11, 1908, to determine through the ballots of its citizens whether or not the manufacture and sale of liquors shall be prohibited in the city, and believing that no element of our citizenship is more vitally interested in the outcome of said election than the working people, and

Whereas, this so-called local option election is but a part of a far-reaching and well-organized plan of a sect called prohibitionists to destroy the entire brewing and liquor industries, in which hundreds of thousands of our fellow workmen are engaged, earning an honest livelihood, and

Whereas, the principle upon which this prohibition movement rests is repugnant to every sense of right and justice of a free people and would find no response in any true American heart except for the holy cloak of religion which it assumes to garb itself in, and

Whereas, the success of such a movement in Sedalia would mean impoverishment for the city itself and would add many more of our fellow workmen to the hopeless, despairing army of unemployed, bringing hardship and misery to many in a foolish attempt to save a few unfortunates; therefore, be it

Resolved, That the Sedalia Federation of Labor is opposed to the attempt of the Anti-Saloon league to fasten its radical, violent, impracticable and unchristian doctrine on our city.

We believe that the trades labor movement everywhere should combat any and all attempts to invade the rights of citizenship so dearly purchased by the founders of this government.

Medical statistics of Europe and America, conceded to be the most authentic in the world, conclusively show that the root of intemperance is lack of proper nourishment and opportunities of living under sanitary conditions.

Millions of little children who are compelled to work long hours under unfavorable conditions, become old before their time, and when coming to adult age resort to stimulants to sustain them. We would therefore respectfully suggest to the many apparently earnest men and women advocating prohibition that they expend their energies in the direction of the prohibition of child labor, especially in the states where child labor flourishes in its most hideous form, and where prohibition has been adopted as the organic law.

The prohibition of child labor, the proper care and education of the child (the future fathers and mothers) would do more in a generation for true temperance than all the present agitation of the Anti-Saloon league.

The Modern trades union movement is the greatest unulative intelligent effort for true temperance evolved in the past one hundred years. Since the advent of modern trades union conditions of the wage earner have greatly improved in the way of increase of pay and shortening of hours; this in spite of the repeated assertions of the opponents of the movement that an increase in pay and decrease of hours would result in greater intemperance. It is an undeniable fact that in every instance where an organization has secured better wages; shorter hours and sanitary shop conditions it has raised the moral standing of its membership in every respect, and has resulted in an advancement of true temperance.

We believe in strict regulation of saloons and punishment of dealers

who sell to minors or habitual inebriates.

We favor the keeping of orderly and respectable dramshops and do not believe that they should be made political headquarters.

We believe that the abolishment of prohibition of licensed saloons will mean the creation of unlicensed dives.

The unlicensed dive, experience shows, is the successor of the licensed saloon. The dive breeds contempt for law, just as the well regulated saloon secures respect for it.

We therefore appeal to all wage workers and their friends to resent with their ballots this impudent attempt to bring penury and woe to Sedalia and its citizens.

BRIDGE WAS BLOWN UP

**FIFTY POUNDS OF DYNAMITE
PLACED UNDER UNCOM-
PLETED STRUCTURE.**

LABOR TROUBLE THOUGHT BLAME

**Threats Had Been Made That Unless
Grievances Were Adjusted It
Would Be Destroyed—Two
Men Seen by Watchman.**

New York, May 21.—The new bridge under course of construction on the Harlem branch of the New York, New Haven and Hartford railroad at Baychester was wrecked by dynamiters today, a charge of fifty pounds being used.

There has been much labor trouble on the structure and alleged union men have asserted that they would blow it up unless the grievances were adjusted. The explosion occurred just at daylight. The watchmen were thrown to the ground and hundreds of windows in the vicinity were broken.

The watchmen, when they arose, saw two men running from the bridge and fired upon them, but without result and they escaped. An attempt was made yesterday to blow a bridge spanning the Harlem river.

STORM CLAIMS A VICTIM

**Houses Blown Down and Barns De-
molished—One Woman Killed.**

Salina, Kas., May 21.—One person, Mrs. Fred Grothe, was killed and several others more or less injured by a tornado which struck Lincoln, a small town northwest of here, last night.

Several houses were destroyed and a number unroofed and many barns blown down. Mrs. Grothe was so seriously injured when her residence was demolished that she died today.

Three Reported Killed.

Clay Center, Kas., May 21.—A report from Green, a small town in the east part of the state, says that a tornado passed through the north part of the county last night, killing three people and doing much other damages.

All wires are down and particulars are hard to obtain.

STRIKE NEARING SOLUTION

**Cleveland Union Men Agree to Arbi-
trate Chief Difficulty.**

Cleveland, O., May 21.—The local street car strike neared a solution today when the union men agreed to arbitrate the question of preferred runs for the old men. This was one point which the company objected to.

There were some disturbances last night, several cars were damaged by dynamite and several persons were injured, but all in all, there was less disorder than has been usual since the strike began.

GUILTY OF MURDER

**Woman in Kansas Poisoned Four-
Year-Old Child.**

Kansas City, Mo., May 21.—Mrs. Sarah Morasch, aged 48, was today found guilty of murder in the first degree by a jury in Kansas City, Kansas, which tried her on the charge of poisoning a 4-year-old Ruth Miller.

The woman will be sentenced to life imprisonment.

"LADY GODVIA OUTDONE"

**ENGLISH MUSIC HALL FAVOR-
ITE, IN TIGHTS, CAUSED
A SENSATION.**

THE DANCE OF EVE' SEEN IN PARIS

**Marie Flamant Appears Wearing a
Fig Leaf Only, and Thers Is
Talk That She May Dis-
card Even That.**

Paris, May 21.—When an English music hall favorite, impersonating Lady Godvia, appeared in the Coventry spectacle last year clad only in tight, all England held up its hands in holy horror.

One shudders to think of what would happen to these Puritans if they should come to Paris and see La Belle Marie Flamant in her very latest sensation, "The Dance of Eve." Even Paris has been shocked at the spectacle—so shocked that the "standing-room only" sign is displayed every night at the playhouse where Marie is the delight of the Parisian Johnnies.

Marie wears the historical costume of Mother Eve, a fig leaf—and a very tiny little fig leaf—that, and nothing more. The authorities have threatened to interfere with the performance—threatened and nothing more. And now—horror upon horrors—Marie promises to discard the fig leaf.

"And why should not a lady appear on the stage in the altogether?" inquires Marie, and all Paris has taken up the question. The press is filled with communications and interviews on this important topic, and Marie has found defenders even among the "immortals" of the academy.

It is declared by some prominent writers that a condition of audacity would be less objectionable, from ethical and artistic viewpoints, than the costumes now being worn in public by certain leaders of Parisian society.

There are a few objectors to the proposition of Mlle. Marie, but their protests are lost in the great flood of commendatory comment that is filling the newspapers.

Apparently, if public sentiment is to decide the matter, Marie will soon be seen in a realistic presentation of Eve before the fall. With anticipatory thrills of delight, Paris awaits the comments which will certainly follow in what it terms the "prudish dress" of England and America.

NARY A FOX OR WOLF YET

**Members of Missouri Club Camping
on Big Springs.**

The Missouri Fox and Wolf Hunting club is camping on Big Springs, on Little Muddy creek, seven miles north of Sedalia, today.

Up to the latest report, not a single wolf or fox had been spied, although a vigilant search is being made.

Fifteen packs of hounds, ranging in number from one to six in each pack, under the supervision of John McFarland, are participating in the chase.

Sixty-five people from different parts of the state, are attending, while a number of onlookers are also present.

Charles Walch is conducting a restaurant on the grounds.

MR. HEARD TOLD HIM THINGS

**When Mistaken for Judge Evans at
Jefferson City.**

Former Congressman John T. Heard, of Sedalia, does not resemble Judge W. N. Evans, of the democratic state committee, in the least, writes the Jefferson City correspondent of the St. Louis Republic.

They may be nearly the same age, and both have been life-long democrats, but otherwise there is no similarity. This did not prevent a country delegate, however, from mistaking Mr. Heard and advising him, not to resign the chairmanship of the committee.

The Sedalian assured him there was a mistake, but the granger knew better and persisted. Then Mr. Heard said something that caused his adviser's under jaw to drop and perspiration to stand out on his forehead.

Sedilians Were in Switzerland. A postal card from Emil Bichsel and Dr. A. H. Heaton today announced the arrival of the gentlemen in Switzerland.

THE NEW NORTH.

The proposed extension of a branch line of the Canadian Pacific railway to a point on Hudson bay, with a view of furnishing a new and cheap outlet during four months of the year for the shipment to Europe of Canadian wheat, is no doubt an entirely feasible project. The development of the grain growing areas of Western Canada is destined to become an increasingly important factor in furnishing the bread supply of the world. Direct shipment by the way of Hudson bay would be the shortest and cheapest way of reaching European markets.

As the consumptive capacity of the United States more nearly approaches the bread-producing capacity of our farms, the increase of wheat production in Canada serves to give comfortable assurance for the future, when we shall no longer have a surplus to dispose of. Rail communication with Hudson bay would also bring within our reach a new and important source of food supply. The Toronto Globe declares that the salmon fisheries of Hudson bay are among the richest in the world. The cod fisheries rival those of the banks of Newfoundland. Unless we shall be fools enough, in the interest of the fish trust, to cut ourselves off from the advantages which proximity gives us in furnishing our tables with cheap cod and salmon when the opportunity offers, we may look forward hopefully to the northward push of the Canadian railways. The increasing cost of meat products makes any promised augmentation of a substitute food supply important.

TAXING THE NEWS.

The newspapers of the United States which have united in a demand for the removal of the tariff on wood pulp and print paper are accused of inconsistency in upholding protection, or enduring it with complacency until their own "selfish interests" are assailed by higher prices.

The gibe does not touch the Democrat-Sentinel, which has always advocated tariff reform. It does not even fairly lie against all republican newspapers, for many of them have ably urged upon their own party the necessity of reducing tariff burdens. Nor is it the "selfish interests" of publishers that are assailed. Those publishers who reduced the price of their paper in years past to one cent gave their customers—and others did not give them—all the benefit of cheap paper. At the new price now set by the tariff protected trust these publishers will practically all be compelled to raise their price to two cents.

Why should an illegal and irresponsible trade combination be allowed to compel a 100 per cent tax upon the public?

CONSIDER THE CONSUMER.

It used to be that a merchant's chance of doing business with any particular consumer was in inverse proportion from the consumer's home. That was before the development of newspaper advertising power and of modern transit facilities. Now, distance, within reasonable limits, is a negligible factor. The consumer knows little or nothing of the offerings of the store around the corner unless the store around the corner advertises; yet the stock of the store five or ten miles distant, is spread out before his eyes every morning at the breakfast table, and the special reasons why he should deal there emphasized.

Naturally, he follows the line of least resistance, regardless of its length. The store that advertises gets his patronage because it is the store that pays the greatest consideration to his convenience.

It seems that when Platt wrote to Mae Wood, "I'm an old fool," he knew himself better than the public supposed.

After coal is gone, we will use electricity, says one expert. Yes, but where will we get it?

Another \$50,000 will land the north pole, sure, says Peary, but he forgets how many times he has lost the same thing to those who put up the money.

Was Too Drunk to Talk.

A stranger in Sedalia was found in a beastly intoxicated condition by a Missouri Pacific boilermaker and wife in the vicinity of Lamina and Broadway at 10 o'clock last night.

The man was lying flat on the ground, too drunk to talk. A police call was sent in, and the man was removed to the city bastille, where he was permitted to sober up, being fined \$5 by Judge Gresham today.

West Virginia Encampment Closes.

Wheeling, W. Va., May 21.—After one of the most interesting programs in the history of the West Virginia department, Grand Army of the Republic, the annual state encampment which has been in progress during the last three days, will close today. Hundreds of veterans and members of affiliated patriotic organizations have taken part in the meetings.

How to Cure Skin Diseases.

Eczema, pimples, dandruff and itching skin diseases are of local origin and are caused by germs. In order to cure these diseases the germs and their poisons must be driven to the surface of the skin and destroyed. Salves and greasy lotions may give temporary relief, but they do not destroy the germs that cause the disease. A St. Louis chemist has discovered a clean vegetable liquid remedy that will draw the germs and their poisons to the surface of the skin and destroy them, leaving a nice, clear, healthy skin. This remedy is known as Zemo, and by its many remarkable cures has attracted the attention of the leading scientists and skin specialists of this country and Europe.

Zemo has been given the most cordial reception by the public of any similar remedy ever produced, and it is recognized as an honest medicine that makes honest cures.

Zemo is for sale everywhere. You can obtain a trial package free by writing to the E. W. Rose Medicine Co., St. Louis, Mo.

Mr. Dan Wilcox, druggist at 104 West Main street, has secured the agency for Zemo in Sedalia and will gladly show you proof of some of the wonderful cures made by this remarkable remedy.

MESSRS. STONE, FRANCIS, REED AND FOLK DELEGATES-AT-LARGE.

MR. BRYAN ENDORSED TO THE END

Democratic State Convention Held at Jefferson City Yesterday Was the Most Harmonious in Years.

Jefferson City, May 21.—In the most harmonious state convention held in Missouri in thirty years, United States Senator William J. Stone, Governor Joseph W. Folk, former Governor D. R. Francis, of St. Louis, and former Mayor James A. Reed, of Kansas City, were named as delegates-at-large here yesterday to the Democratic national convention at Denver, July 7.

Will A. Rothwell, of Moberly, was re-elected national committeeman from Missouri without opposition, and former Governor Alexander M. Dockery, of Gallatin; Lon V. Stephens, of St. Louis, and Thomas T. Crittenden, Sr., of Kansas City, and Colonel Moses C. Wetmore, of St. Louis, were chosen, by acclamation, as alternates at large. The Seventh district elected as delegates G. D. Kirby, of Greene county, and D. D. Duggins, of Saline county.

The presidential electors at large are: Samuel N. Dickey, of Webster county, and former Congressman M. E. Benton, of Newton county. The Seventh district elector is Horace Blackwell, of Lafayette county. John T. Heard, of Pettis, was the Seventh district committeeman on resolutions.

Speeches were made before the convention by Senators Stone, Governor Folk, Mr. Reed and former Governor Dockery.

The keynote of each was harmony, a suggestion that met with the entire approval of the 998 delegates and was cheered to the echo by the hundreds of spectators that filled the galleries and boxes and swarmed out on the convention floor.

Mayor T. T. Crittenden, Jr., of Kansas City, offered for the second time his resolution to disfranchise ignorant and vicious negroes, but after a heated argument it was defeated.

John M. Atkinson, of Doniphan, Ripley county, speaker of the last house of representatives, presided as temporary chairman. Ovid Bell, editor of the Fulton Gazette, was temporary secretary.

These officers gave way at the suggestion of the committee on organization to State Senator Frank M. McDavid, of Springfield, who was named permanent chairman, and M. T. Jenkins, editor of the Platte City Landmark, who was chosen permanent secretary.

The election of Senator Stone and Governor Folk as delegates at large was made by acclamation on the motion of State Senator Thomas R. R. Ely, of Dunklin county.

An effort was made to have Governor Francis and Mr. Reed included in the motion, but the suggested amendment was withdrawn when an objection was raised by Colonel Nicholas M. Bell and Attorney Harry Walsh, of St. Louis, who proposed Wetmore and Stephens, respectively.

The roll call was demanded on the vote for Francis, Reed, Wetmore and Stephens, and when the nominators of the two latter saw that it was the will of the majority of the convention that Francis and Reed should complete Missouri's big four, they quickly withdrew their names.

An unsuccessful effort was made by Russell Kneisley, of Carrollton, to have Gus Thomas, the playwright, named as alternate at large. Mr. Thomas is a native Missourian, and, though now a native of New York, is

president of the Missouri society of that city. He was proposed by Mr. Kneisley as "Mr. Bryan's personal friend."

The convention adjourned, after adopting the following platform:

The democracy of Missouri, in convention assembled, sends greeting to the democracy of the nation and gives them assurance that in November Missouri, setting an example of party unity, will take her proper place in the front rank of democratic states, and in view of the universally admitted fact that national conditions are exceptionally auspicious for the democracy, we appeal to our brethren throughout the union to join with us in the supreme struggle to win a memorable victory and place the government once again in the hands of the old party of the constitution and the people.

With renewed zeal we reaffirm our allegiance to the principles of democracy as declared by Jefferson, Jackson and Bryan; and our delegates to the national convention are hereby instructed to cast the vote of this state as a unit for the nomination to the presidency of that intrepid champion of the people, William J. Bryan, and to support his candidacy to the end.

We endorse the administrations of all our democratic governors, from that of Woodson to and including that of Gov. Joseph W. Folk; and we commend the members of the general assembly in both senate and house for the many wise laws passed from time to time in the interest of the people.

We endorse the official records of William J. Stone, United States senator, and of the democratic members from Missouri in the national house of representatives.

In as much as the national convention is soon to formulate a declaration of principles, we refrain from any attempt to present the views of the Missouri democracy upon national questions at this time; but in advance of the Denver convention, we appeal to the patriotic democracy of Missouri, under whose control she has grown to be one of the most powerful commonwealths of the nation, to rally as one man at the November election and fully restore her to her old-time prestige as a democratic state.

We call attention to the fact that prior to the election of 1904 the republican press and partisans again and again charged the officials of Missouri with having squandered and looted the school and other public funds of the state and promised the people that if they were given an opportunity to "see the books" they would demonstrate that those malicious and libelous charges upon the good name of the state were true; and we now point with pride to the fact that after they have for almost four years been in sole charge of the books they have found everything in excellent condition, not one collar missing, and they have been compelled by their very silence to confess that they, by the unwarranted and false charges, libeled and slandered their own state simply for partisan purposes.

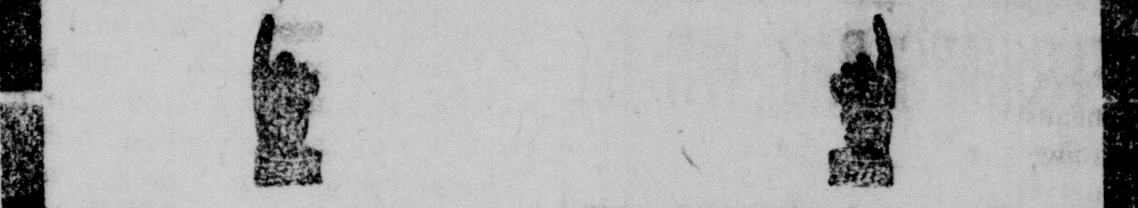

The democratic party has always stood for internal improvement and especially for the development of the waterways of the country into such complete navigability that they would act as checks on the rates of the railroads and secure better service by competition. River regulation is rate regulation naturally, and is better than regulation by legislative enactment, as it works automatically. The St. Louis platform of the national democratic convention of 1904 declared: "We favor liberal appropriations for the care and improvement of the waterways of the country. When any waterway like the Mississippi river is of sufficient importance to demand special aid of the government, said aid should be extended with a definite plan of continuous work until permanent improvement is secured."

The democrats of Missouri believe that this policy of permanent improvement of the Mississippi river demanded by the St. Louis platform can be best and most quickly carried out through the building by the government of the lakes-to-the-gulf deep waterway, which will enable the farmers, manufacturers and merchants of Missouri to carry their products and their goods to all parts of the world cheaply and without breaking bulk. The waterway from the lakes to the gulf should be placed on the basis of continuous appropriations, like the Panama canal.

The permanent improvement of the Missouri river, the most important part of which is entirely within the bounds of the state of Missouri, and of the upper Mississippi river must be assumed by the government at this time, so that freight lines of tow-boats and steel barges may run safely on these rivers, not only from St. Paul down, but from Fort Benton and Helena through St. Joseph and Kansas City.

The state central committee is hereby authorized and empowered to fill any vacancy that may occur upon the electoral ticket.

SLAYER OF 7 WAS SHOT

WALKER K. HARGROVE KILLED IN FORT WORTH SALOON FOLLOWING ROW.

ASSAILANT THEN SURRENDERED

Crowd of Thousand Gathers at the Scene and Follow Prisoner—Broken Glass Said to Have Been the Cause.

Fort Worth, Texas, May 21.—Walker K. Hargrove, known slayer of seven men, was shot three times last evening in a saloon at Main and Third streets, and from the effects of the third bullet, which entered the forehead just above the left eye, death came quickly.

From the account given by Detective Ben Bell, to whom Walker James, who is charged with the shooting, surrendered immediately after the affair, Hargrove had been in the saloon fully thirty minutes previous to the shooting, and had engaged in an altercation over broken glasses in which drinks had been served.

Detective Bell states that Hargrove got into a dispute with James and had started around the east end of the bar, with the announced intention of "settling matters" when the fatal shots were fired.

Every shot took effect. One bullet entered the forehead just above the left eye, another entered the right breast just above the nipple, and the third buried itself in the stomach. Justice of the Peace Mahen held the inquest, but will not render his verdict until late today, by which time he will have examined all of the necessary witnesses.

The news of the shooting spread like wildfire about the city and in an incredibly short space of time a

crowd of more than a thousand had gathered. Despite the efforts of the police, the saloon was soon filled to the point of suffocation. Immediately following the shooting Walter James surrendered himself to the detectives, who turned him over to several officials, including four deputy sheriffs.

The officials, a half hour later, escorted James to the office of Justice Mahen, followed by a crowd of more than 1,000 men and boys, who also fruitlessly attempted to make their way into the court room.

James waived a preliminary trial and by an agreement with the county attorney, the bond for his appearance in front of the grand jury was fixed at \$5,000.

The bond was quickly given. James, accompanied by his relatives and several friends, immediately left the court room and went to his home.

Soon after the shooting an undertaker called and took the body of Hargrove to the morgue.

In the local county courts, as well as in others, records go to prove that Walker Hargrove had an exceptional police record, and that on several different occasions he had been tried on the charge of murder.

The first serious trouble in which he was implicated was at Arlington in 1891, at which a shooting affray resulted over a horse trade, and in which William Smith, Harry Spears and George Hargrove, a brother of Walker, were killed outright and Walker's father was mortally wounded.

A few years later Hargrove moved to Bowie, shortly after which he was made deputy sheriff at the time that the town was already under control of a lawless element.

To his credit, it is said that he was very successful in breaking up an organized gang of desperate characters then in the town, but not before he had made several dangerous enemies.

In view of the latter fact, Hargrove always went armed, and the story has often been told that on his later trips to Bowie and in other communities where he expected trouble, he invariably wore a steel coat of mail, which fitted the upper portion of his body.

Hargrove was tried for the murder of a man by the name of Wagner at Bowie, and for another similar affair which occurred in the country near Bowie, but on neither charge was he convicted. He was 38 years of age and is survived by his wife and two babies, the older of whom is an 18-months-old girl. Three years ago he moved to this city.

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes broadcast and on each bottle of his medicine, what his medicines are made of, and verifies it by analysis. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comfortable upon functional and nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities to Doctor Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

PROCESSION OF MADMEN

Insane People Taken to New Asylum in Oklahoma.

Guthrie, Okla., May 21.—Several hundred buggies, carriages and other vehicles were used to transport the insane patients from the railroad station at Fargo to the new state asylum at Fort Supply, ten miles distant, forming one of the most novel processions ever seen in Oklahoma.

The work of transferring the patients from the private sanitarium at Norman to Fort Supply will not be completed until July. The former government military post which will hereafter be used as a home for the insane is ten miles from a railroad, and all the patients will have to be transported overland.

A PARSON'S LOVE AFFAIR

CAUSED NO END OF GOSSIP IN A LITTLE TOWN OVER IN ILLINOIS.

PRETTY POSTMISTRESS SPREAD IT

Then Her Arrest Followed on Charge of Having Tampered With the Mails—The Case is to Come Up Today.

Chicago, May 21.—Miss Anna Whitmore, the pretty postmistress of the village of Gray's Lake, will be given a hearing by the federal authorities today on a charge of tampering with mail that passed through her hands.

It is not alleged that the fair guardian of Uncle Sam's mails was actuated by motives of cupidity, but rather that a natural feminine curiosity in the love affair of a local parson led to her arrest. The Rev. Mr. Havenor, of Gray's Lake, is the complaining witness.

Parson Havenor declares that his engagement to Mary Calvin, of Fort Wayne, although supposed to be a profound secret, leaked out in Gray's Lake and was known to every gossip in the village.

Everywhere he went, declares the parson, he was greeted with grins and giggles, and many people favored him with exact quotations from the loving letters that passed daily between him and his fiancée.

At last, says the preacher, he was told that the postmistress was spreading the information about his love affair, and he appealed to the postal authorities to put a stop to such proceedings.

An investigation by post office officials and the arrest of Miss Whitmore followed. It is not known what plea the alleged trifter with Cupid will make when the case is called today.

PRETTIEST INDIAN GIRL

IS WITH MILLER BROS.' "101
RANCH WILD WEST
SHOWS."

IN SEDALIA WEDNESDAY, MAY 27

Miss Jane Bigheart, Daughter of
Wealthy Osage Indians, Fea-
tured by the Wild West
Shows.

"The prettiest Indian girl in the southwest" is with the 101 Ranch Wild West show, which will be here for afternoon and evening performances on Wednesday, May 27. The young woman who wears this proud title is Miss Jane Bigheart, in whose veins flows the pure blood of the Osages, the wealthiest Indian nation in the country. Her parents receive more than \$10,000 annually in government annuity and mineral, oil and pasture leases.

Miss Bigheart's home is a cabin on a wooded hillside near Gray Horse, Okla., which her father and mother will not abandon for the modern comforts their income warrants. Most of her hours are spent, however, on a big nearby cattle ranch, where lives her white friend, Miss Sophia Wilson. The Indian belle speaks English fluently and plays several musical instruments. Horseback riding is her chief sport, and she can rope a steer as quickly and securely as a skillful cowboy. She won her title at a recent beauty contest.

Miss Bigheart's parents arranged a wedding for her by gift last year, and the would-be bridegroom, a Carlisle graduate, tied his ponies in her yard. Next day he found them loose, signifying her rejection and her defiance of a long accepted Osage custom of marriage. Miss Bigheart announced to her astonished parents that she would select her own husband.

When it became known through the Osage Indian country that the famous 101 ranch would send out a wild west show, Miss Bigheart enlisted. She says she is having the best time of her life. So are the cowboys, when in her company.

POLICEMAN SHOT A STUDENT

Death May Result From a Sign Stealing Prank in New York.

New York, May 21.—Robert H. Cook, a first year student at Columbia university, said to be the son of a lawyer in Albany, was shot in the head and, it is feared, fatally wounded by a policeman last night.

Howard P. Cole, a companion of Cook, was arrested after Cook had been shot. Cole also is a Columbia student and both were charged with attempted burglary. The police allege that the students were trying to tear down a sign from a refreshment booth. John A. Hurlens, a policeman, saw them. He says that the men ran upon his approach. He said that he ordered them to stop and Cole obeyed.

Cook continued to run and the policeman fired into the air. After a chase of two blocks Hurlens again ordered Cook to stop and then fired. The bullet entered Cook's head back of the left ear.

OSTEOPATHS ARE HARD HIT

Missouri Supreme Court Decides They Must Have Diplomas.

Jefferson City, Mo., May 21.—An opinion was rendered yesterday from the attorney general's office which will have an important bearing upon osteopathic physicians, many of whom will be denied the right to practice as such.

The opinion holds that successfully passing an examination before the Missouri state board of osteopathy is not in itself sufficient to entitle the applicant to a license authorizing him to practice, and holds that a diploma from a regular school of osteopathy, in addition to an examination before the state board, is necessary.

Many licenses have been issued the past two years, and all these, where the licensed person was without a diploma, are declared illegal.

A man of integrity, brains and energy, studies the problem, let us say, of invisible bifocals. He works at it for years, not contenting himself with the results, until he has produced something which does the work better than anything else, and with less labor, more permanency, and comparatively less cost. CAUGHT AFTER 13 YEARS

Man Wanted in Seattle, Wash., Arrested in Wichita, Kas.

Seattle, Wash., May 21.—Frank Hart, who was sentenced to seven years imprisonment in the penitentiary, and who escaped from the county jail here pending an appeal of his case, returned to the jail yesterday after an absence of over thirteen years.

Hart has been running a pool room at Wichita, Kas., and was recently arrested on suspicion by a railroad detective. His picture was identified in the rogues' gallery and he was returned to this city.

Hart was convicted of steering two Swedish women into a shell game where they lost \$600. Two accomplices were also convicted, but they refused to escape at the time Hart did and were pardoned.

IN THE WARD FOR INSANE

ALLEN DORMAN, WHO FORMERLY
RESIDED AT CLINTON, IN
HENRY COUNTY, MO.

MAN IS WELL KNOWN IN SEDALIA

Once Posed as a Professional Rain-
maker and Sold 1½ Karat Dia-
monds for the Small Sum
of Five Dollars.

Kansas City, Mo., May 21.—Allen Dorman, formerly of Clinton, Mo., rainmaker, poet, inventor and promoter, is in the insane ward at the general hospital.

"It's all on account of the Sunday closing law," he said yesterday afternoon. "I passed an open grocery store last Sunday and the proprietor thought I was a spy for Judge Wallace. He struck me in one eye and then told me why he hit me. I was badly bruised and thought I had better come out here to recuperate."

Allen does not know who hit him. Allen Dorman first became known to the public in September, 1905, when he scattered broadcast a circular from the "Continental Rainmaking Co. of Clinton, Mo."

Mr. Dorman claimed the distinction of being an inventor, author and chemist, and made a specialty of making rain by artificial means. He also advertised his book of poems, catalogue of inventions, and the "Allen Dorman diamond, 1½ k. in size, \$5, and Allen Dorman sapphire, 1½ k. in size, \$5."

Following this was a list of 126 of his inventions, discoveries, enterprises and accomplishments. These varied in character from billiousness to blasting powder, and from whisky cure to winter watermelons.

April 20, 1906, Mr. Dorman was arrested in Kansas City for trying to sell home made diamonds. He was fined \$5 in police court and being unable to pay the fine was released and ordered not to return to Kansas City.

He was arrested on May 26, 1906, and sent to the work house. He was released in a few days and returned to Clinton. July 4, of the same year, he applied to the government for P. Connor's position as weather man in Kansas City. He was not appointed.

WALKED IN HER SLEEP

And Was Felled With Chair in Hands
of Hotel Guest.

Bellefontaine, Ohio, May 21.—Miss Jessie Weaver forgot to tell the other roomers at the Deiner boarding house, at West Liberty, when she took up her home there recently, that she was subject to somnambulism.

Tuesday night when she was walking about the halls and entering various rooms, clad in the ghastly white of her clinging night gown, she uttered a scream that awoke Nathaniel Reber with a start and the guests thought a murder was being perpetrated.

Reber grabbed a chair, and, with a powerful blow, he knocked Miss Weaver down and awakened her.

The young woman is suffering from a deep gash in the head and a nervous shock, while Mr. Reber has a consuming attack of mortification.

Harry M. Rubey, of Macon, Democratic State Chairman.

Jefferson City, Mo., May 21.—At a meeting of the state committee last night Judge W. N. Evans resigned as chairman. He said that he gave up the place because of the fact that he is a candidate for governor.

"I want to say," he remarked to the committee in handing in his resignation, "that I am in the race for governor to stay until after the primary has been held in August."

Harry M. Rubey, of Macon, was elected chairman to fill the vacancy. His headquarters will be at Macon until after the state primary, when they will be removed to St. Louis. Mr. Rubey was authorized by the committee to appoint a financial committee of five, which he will announce later.

MAE C. WOOD ARRESTED

CHARGED WITH PERJURY IN AL-
LEGING MARRIAGE TO
SENATOR PLATT.

THE CASE WAS DISMISSED TODAY

Because of His Feeble Condition and
Fearing a Collapse, the Judge
Stopped the Mae Wood Di-
vorce Trial Wednesday.

New York, May 21.—Judge O'Gor-
man, of the supreme court, this after-
noon dismissed the case of Miss Mae
Wood for annulment of her marriage
to Senator Platt on the grounds that
no marriage had ever taken place.
Miss Wood was immediately arrest-
ed on charges of perjury.

New York, May 21.—Frank H.
Platt, son of Senator Tom Platt, tes-
tified today in the suit for divorce
brought against the senator by Mae
Wood, and declared that he believed
none of the letters introduced in evi-
dence were true copies of those writ-
ten by his father. He had examined
carefully the original copies of the
letters written by the senator to
Mae Wood, and turned over to him
by Abraham Hummel upon payment
of \$10,000, and there were no such
communications among them as the
alleged copies produced in court.
Platt said that after reading the origi-
nal letters he personally had burned
them.

New York, May 21.—When Sena-
tor Thomas C. Platt entered the
court room yesterday to testify at
the trial of Mae C. Wood's suit
against him for divorce he was so
weak that he had to be supported.
His testimony was chiefly a denial
that he had ever married Mae Wood
or even promised to make her his
wife.

The senator testified most of the
time almost in a whisper and when
he was asked to speak louder he
made a most pitiful attempt to do
so.

Often, when his feelings got the
better of him and he tried to make
his words emphatic, he could hardly
be heard a few feet away.

Miss Wood was not in court to see
the pitiful condition of the man who,
she says, is her husband. For nearly
three hours the senator endured the
 ordeal. When he was told finally that
it was over he drew his overcoat un-
der his shoulders and looked out
appealingly for help.

"I can't get up," he said.
Attendants lifted him out of the
chair. He put on his silk hat, and
when a court officer cried "Hats
off," he begged to keep it on. He
did not have the strength to hold
his own hat. They took the senator
from the court room. He was so
weak that he could barely move his
legs. In three-inch steps he walked,
or rather, was dragged down the
aisles.

Senator Platt's examination was
closed abruptly at the suggestion of
Judge O'Gorman. The judge noticed
that the witness was almost on the
verge of collapse, and called Miss
Wood's lawyer, Charles LeBarbier,
to him. In a whisper, he suggested
that the cross-examination be brought
to a close as speedily as possible.
This was done.

Mr. Stanchfield limited his redirect
examination to a few brief questions.
While denying in direct examination
that he had ever married Miss Wood
or even asked her to marry him under
cross-examination he admitted a very
cordial friendship and said he liked
her because she was a very agree-
able woman.

When asked if he had ever address-
ed her in endearing terms he first
said "No," and then qualified his
answer when testifying, "I may have
done it foolishly sometimes."

Senator Platt admitted that Miss
Wood was in his apartments at the
Fifth avenue on Nov. 9, 1901, the
day she says a marriage ceremony
was performed. The senator, how-
ever, said that he had merely asked
her there to have dinner with him,
and that she had not remained, as
she testified, for the next three days.

He admitted, however, that they
had a code of signals by rapping on
the door between the rooms she oc-
cupied and the outer rooms. Senator
Platt also admitted that his secre-
tary at that time was Albert Howe, a
Methodist preacher, but he denied he
had ever officiated at a marriage cer-
emony or signed a marriage certificate.

Some amusement was caused when
Mr. LeBarbier asked Senator Platt
if he had not written Miss Wood, ad-
dressing her as "Dear Katy."

"I might have said 'Catty,' replied
Senator Platt.

"Was it a pet name?"
"No," replied Senator Platt, em-
phatically.

Senator Platt said the letter be-
ginning "I am willing to admit that
you are my legal wife" bore his
true signature, but that when he

Had written his name the sheet was
blank. He also said he believed the
signature "for my little wife, T. C.
P." on the back of his photograph
was a forgery, and he denied he had
held Miss Wood on his lap, as she
testified, while she guided his hand
in writing his name. Senator Platt
also denied that he had winked at
Miss Wood on leaving the Arlington
hotel in December, 1906, after the
present suit had been instituted.

PARIS HAS ALREADY SO DECREED

A Transparent Gown That Is Calculated to Lure Men to Destruction Has Made Its Appearance in Gay "Parée."

Paris, May 21.—If it is true that "What Paris wears today the rest of the world will wear tomorrow," American men had better invest immediately in goggles.

The transparent gown, the most daring sartorial effect ever achieved by Parisian modistes to lure men to destruction, has made its appearance on the boulevards, setting off, but not hiding, the charms of the feminine leaders of the French capital's smart set.

The new gown is not only tight fitting, showing every line and curve of the fair wearers, but it is made of silk so thin and fragile as to be almost transparent.

The innovation has created a sensation, even in Paris, which is accustomed to bizarre costumes.

In many instances, the wearers of the transparent gowns have been surrounded by great crowds of men, all anxious to inspect the effect at close range, and only the interference of the police has prevented the women from being mobbed.

COW DRAGS BOY TO DEATH

Pope on Horns Was Tied Around the Lad's Waist.

Independence, Mo., May 21.—Henry Smith, 10 years old, left home in independence about 7 o'clock yesterday morning to take a neighbor's cow to pasture.

Around the cow's horns a long rope was tied. The other end the boy knotted around his waist and drove the animal in front of him.

The cow became frightened and began to run. Henry was thrown to the ground. His screams only added to the cow's terror and she ran faster. His skull was fractured.

The cow ran about a quarter of a mile before it stopped, exhausted, in front of a green house on the spring branch road.

When men found the boy he was breathing, but he died a few moments later.

GOSSIP CAUSED A SHOOTING

One Missouri Farmer Talked About Another and Was Killed.

Springfield, Mo., May 21.—Frank Coy, 25 years old, was shot and killed on his farm near Kisses Mills, Taney county, Tuesday by Boyd McVey, a neighbor. McVey drove to Forsythe after the killing and surrendered to the authorities.

The killing was the result of a quarrel about a young woman in the neighborhood. McVey asked Coy to retract his statements connecting McVey and the girl. Coy refused and McVey fired with a revolver. McVey is in jail charged with first degree murder. Both men are farmers. Coy left a widow. McVey is married and has a family.

FEAR INFUX OF FOREIGNERS

Merchants' Association Claims Packers Broke Faith.

St. Joseph, Mo., May 21.—An influx of foreigners of an undesirable character is pouring into this city in such numbers as to create alarm among American laborers and mechanics, especially those employed about the packing houses.

Four members of the Retail Merchants' association, who disguised themselves as laborers, last night reported to the association that the packers had broken faith with the merchants by giving "bohunks" the preference in employment. A delegation of merchants will go to Chicago to enter protest to the packers.

SNAKE BITE MAY KILL GIRL

Reptile Coiled in Hen's Nest Sinks Fangs in Child.

Des Moines, Ia., May 21.—Hazel, 8 years old, daughter of Mr. and Mrs. N. M. Morgan, of near Hopeville, was bitten by a snake while hunting eggs yesterday.

She put her hand into a dark nest. The snake sank its fangs into the flesh of her hand. She is in a critical condition.

OVERTAXED.

Hundreds of Sedalia Readers Know What it Means.

The kidneys are overtaxed; Have too much to do. They tell about it in many aches and pains—

Backache, sideache, headache, Early symptoms of kidney ills. Urinary troubles, diabetes, Bright's disease follow.

A Sedalia citizen tells here a certain cure.

L. H. Oswald, of Sedalia, Mo., says: "I can highly recommend Doan's Kidney Pills, as I used them with the most satisfactory results. For some time my kidneys were too frequent in action and whenever I caught cold it was sure to settle on these organs, and at such times my rest would be disturbed at night. When I read how successful Doan's Kidney Pills had been in removing such difficulties, I procured a box at the W. E. Bard Drug Co. and began using them in accordance with the directions. They acted up to their representations in my case and proved so satisfactory that I am pleased to publicly endorse them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. York, sole agents for the United States. Remember the name—Doan's—and take no other.

Rat Snap!

The New Rat and Mice Destroyer. A few pointers about Rat Snap: By a newly scientific discovery there is No Small after rats and mice eat Rat Snap. By the most careful study of the habits and tastes of rats and mice, Rat-Snap is so prepared that rats and mice crave it. It is a dessert for them—the last they eat. They leave all other foods for it, while in the cases of home prepared mixtures they will not touch them at all.

Rat-Snap is made of the strongest poisons known and the ingredients carefully prepared to make them the most attractive food for Rats and Mice.

Rat-Snap acts quickly and will kill two dozen rats or mice.

No annoyance or trouble of mixing. No soiling of dishes. Rat-Snap never spoils—is always good.

Rat-Snap may be dropped in holes or along cellar walls, in fact all out-of-the-way places. In linen closets without soiling anything.

GREAT CHURCH MEETING

GENERAL ASSEMBLY OF PRESBYTERIAN CHURCH OF UNITED STATES.

CONVENED IN KANSAS CITY TODAY

A Representative Body Composed of 800 Regularly Elected Commissioners—Meets in Convention Hall.

Kansas City, Mo., May 21.—With songs of praise and prayers for divine guidance in its deliberations, the 120th general assembly of the Presbyterian church of the United States convened in Kansas City today. The city is thronged with a multitude of visitors, numbering several thousands, including clergymen and missionaries from all parts of the world.

Convention hall, the magnificent edifice in which many political and other gatherings of national importance have been held, is the scene of the great conference of Presbyterians, which is the second since the consolidation of the Presbyterian and Cumberland Presbyterian churches. One and a quarter millions of members are represented by the delegates gathered here today. All of the southern and southeastern states are represented for the first time, at this assembly, making it the largest convention in the history of the denomination.

The general assembly is a representative body, composed of 800 regularly elected commissioners, in addition to secretaries of boards, foreign missionaries, college presidents and prominent laymen, senators, congressmen, editors, educators, lawyers and distinguished men of other professions, with many business men, who will take an active part in the discussions. William Jennings Bryan is slated for an address.

Missionaries from any out of the way corners of the world are here, and all races, nations and tongues are represented. Some of them are visiting the United States for the first time in many years and there were many affecting scenes as long separated brethren of the church met in joyful reunion.

The assembly opened with the annual sermon of the Rev. Dr. William Henry Roberts, of Philadelphia, who is moderator, stated clerk and secretary to all the twenty-two special committees. Many important matters will be considered during the convention, which will last until early next month. The union of the

WADDELL JUMPS CLUB

Eccentric Twirler Signs to Pitch for Independent Teams.

Philadelphia, Pa., May 21.—Something of a sensation was caused yesterday at the Abilene hotel when Rube Waddell, the hero of Tuesday's baseball game between the St. Louis Americans and the Athletics, played before over 20,000 people, approached C. J. Rickert, who, along with J. McAleer, is in charge of the Browns, and said:

"I'm through. Here's my uniform. I can't get my money, so here is my suit, and you can tell McAleer that I have quit. He can blacklist me if he wants to."

It would appear that Tuesday night after the game Waddell asked for some advance salary, a plea he had made earlier in the day. The advance money was refused him, and Waddell left the hotel. He did not return to the hotel until the small hours of the morning.

Neither Rickert nor McAleer would say anything about the incident, except that they were sure Waddell would be on hand when the team left at night.

Waddell did not wait long before getting down to business, for after leaving the club this morning he agreed to pitch on Saturday for Burlington and at Egg Harbor on Sunday. Waddell was seen on a trolley car at Clementon, N. J., last night.

Builds up muscular flesh, healthy tissue, rich blood, clears the stomach, kidneys and liver. That's what Hollister's Rocky Mountain Tea will do. 25 cents, tea or tablets. W. E. Bard Drug Co.

ALICE "CUTS UP" AGAIN

President's Daughter's Gown Is Very, Very Low in Back.

Washington, May 21.—Mrs. Alice Roosevelt Longworth created a sensation in the National theater last night, not by anything she did, but by what she wore. She had on a flaming red gown, cut extremely low, especially in the back, and with no sleeves at all.

It is not customary in Washington to wear very low-cut gowns in the theater, and Mrs. Longworth divided the attention of the audience with the Aborn Opera company, which was producing "Robin Hood."

She occupied a prominent position in the most conspicuous box in the theater, the lower right-hand one. With her were Mr. Longworth, Representative and Mrs. Bourke Cockran and Secretary Charles G. Bennett, of the senate.

WOMEN TAR AND FEATHER M/V

Female Posse Lashes Him and Ducks Him First.

Encampment, Wyo., May 21.—Roscoe J. Beemer, charged with wife beating, was taken from his home near here Tuesday night by a posse of women, wives of miners, lashed twenty times on his bare back, ducked in a big barrel of water, tarred and feathered from his waist to his head and put on a fence rail and ridden out of town.

The husbands, brothers and sons of some of the women witnessed the punishment of Beemer, but took no part.

Whooping Cough.

"In February our daughter had the whooping cough. Mr. Lane, of Hartland, recommended Chamberlain's Cough Remedy and said it gave his customers the best of satisfaction. We found it as he said, and can recommend it to anyone having children troubled with whooping cough," says Mrs. A. Goss, of Durand, Mich. For sale by W. E. Bard Drug Co.

THE FARMER'S WIFE

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

To aid in healing old sores, or ulcers, apply Dr. Pierce's All-Healing Salve to them while taking the "Golden Medical Discovery" to purify and enrich the blood.

Dr. Pierce's All-Healing Salve is cleansing and pain relieving. It destroys the bad odors arising from suppurating, or running sores and puts them in the best possible condition for healing.

The "All-Healing Salve" is a superior dressing for all open, running, or suppurating sores or ulcers. For healing open wounds, cuts and scratches it is unsurpassed.

If your medicine dealer does not have the "All-Healing Salve" in stock, mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will receive it by return post.

In treating all open sores, or ulcers, boils carbuncles and other swellings, it is important that Dr. Pierce's Golden Medical Discovery be taken persistently to purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. Disease in the flesh must die out when it is no longer fed by foul blood. "Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter rising after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid, or lazy liver with the usual accompanying indigestion, or dyspepsia and its attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the schools of medical practice have been skillfully and harmoniously combined in Dr. Pierce's

THE OUTLOOK QUITE SATISFACTORY

Arrangements for Financing Obliga-
tions of the Chief Lines in the
System is Given as the
Explanation.

New York, May 21.—The strength
of all the Gould securities yesterday
led Wall street to believe that certain
developments had taken place that
would mean more intimate relations
between George J. Gould and E. H.
Harriman on the one side and Gould
and John D. Rockefeller on the other.

Missouri Pacific, after declining
from 59 to 58, rose to 61. Wabash
preferred, Texas and Pacific and
Colorado Fuel were all very strong
at the highest prices of the year.

It is understood there is practically
nothing in the talk of an entente be-
tween Mr. Gould and Mr. Harriman.
While the Goulds want an entry into
this city for the Wabash, there is no
more prospect of their getting it now
than in some years.

The prevailing idea seemed to be
that they would use the Erie, now
dominated by Mr. Harriman, the
real basis of the improvement in the
Gould shares is that the different
roads in the Gould system have prac-
tically arranged to finance their ma-
turing obligations, and at the same
time they have provided capital re-
quired to carry out construction al-
ready under way.

The turning point in the Gould situ-
ation was the sale of Western Pac-
ific notes and the completion of the
plan to finance the Denver and Rio
Grande.

The rumor that control of the West-
ern Maryland had passed from the
Goulds to John D. Rockefeller did not
greatly surprise the street. Mr.
Rockefeller was one of the heaviest
subscribers to the underwriting syn-
dicate. He is said to hold 30,000
shares of stock, of which there are
176,000 shares. His ownership of the
first mortgage and convertible bonds,
together with the stock, is believed
to represent an investment of over
\$10,000,000. The present market val-
ue of the property is around \$38,
600,000.

There is yet a belief that the Wa-
bash-Pittsburg Terminal, which cost
the Goulds very heavily and has
never justified itself, may pass over
to some other line, possibly the Penn-
sylvania, which fought the building
of this line bitterly. The interest on
the Wabash-Pittsburg Terminal first
mortgage bonds is due on June 1.
There have been rumors of default.

Officials of the Western Maryland
railroad are arranging for a confer-
ence with the mayor and city au-
thorities of Baltimore to discuss the
Western Maryland situation.

BANKERS VISIT MINES

Report of Secretary Keyser Shows
Membership of 1,126.

Joplin, Mo., May 21.—A trolley car
and automobile excursion through the
Joplin mining district this afternoon
is the closing feature of the most
successful convention ever held by
the Missouri Bankers' association.

The election of officers and dele-
gates to the American Bankers' con-
vention was the principal business
transacted today.

The report of Secretary W. F. Key-
ser, of Sedalia, shows that the mem-
bership of the Missouri Bankers' as-
sociation is 1,126, representing about
27 per cent of the banking institutions
of the state.

RHEUMATISM BLOOD FILLED WITH URIC ACID

Rheumatism comes from an excess of uric acid in the blood. This acid
circulating through the system acts as an irritant to the different muscles,
nerves, bones and tissues of the body, and produces the inflammation and
swelling of the joints and the sharp, cutting pains characteristic of the dis-
ease. When the blood is overburdened with uric acid it continually grows
weaker and more acid, and poorer in nourishing qualities. Then Rheuma-
tism becomes chronic, and not only a painful, but a formidable and danger-
ous disease. Sometimes the heart is attacked, the general health is affected,
and the oils and fluids which lubricate the muscles and joints are destroyed
by the acid matter which the blood is constantly depositing in them; the
muscles shrink and lose their elasticity, the coating of the joints becomes
hard and thick, and often the sufferer is left a hopeless cripple. S. S. S.
attacks the disease at its head, goes down into the circulation, and by neutral-
izing and removing the uric acid from the circulation and building up the thin, acid
blood, cures Rheumatism permanently. S. S. S. changes the sour, acid-burdened blood
to a rich, healthy stream which quiets the excited nerves, eases the throbbing, painful
muscles and joints, and filters out of the system the irritating matter which is causing
the pain and inflammation. Begin the use of S. S. S. now and get the cause
out of your blood so that the cold and dampness of Winter will not keep you
in constant pain and misery. Book on Rheumatism and any medical advice
free. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**
